CONTACT DETAILS

It is very important that we have the correct contact details for parents/carers. We need to have a minimum of 3 contacts per child please.

If you have moved house or changed your number please contact the office to let us know either by text, class dojo or email. Thank you.

PARKING

Please can parents refrain from parking or turning around in the access road or in the staff car park leading to the main reception, this is STAFF ONLY parking and unfortunately staff are finding it difficult to park which ultimately will delay them being in class to look after your child.

WE ARE A CASHLESS SYSTEM AND MONEY NEEDS TO BE PAID ONLINE

Please make sure your child's dinner money account is topped up with credit at the beginning of the week. We can send you a reminder password or print a barcode for you to pay cash at a pay point if preferred. If your child is in arrears you will need to provide them with a packed lunch.

HOW IT WORKS:

In the morning your child will order a school dinner at registration time. When they collect it from the canteen they will be marked off on the dinner list. The office will deduct £2.41 from their account.

If you have any questions regarding school money please contact the office.

Miss Sargent's Message

Today Rosemellin is a sea of red. I love days like today where children are able to dress up in different outfits to support a fantastic charity. Since Comic Relief started in 1985, it has raised over £1 billion! Thank you to everyone who has contributed to making a difference to those in the UK and around the world.

This week is British Science Week and the theme is Connections. The children have been doing some extra Science activities in class and this is a fun activity that you can do at home together.

Take it home:
FANTASTIC FINGERPRINTS

This activity is designed to get you thinking about fingerprints. Check out the video demonstration here:
[bsa.sc/YouTube-CREST-Fantastic-fingerprints-demonstration](#)

Find out if everyone's fingerprints really are different.

⌚ 45 – 60 minutes

Skill set: Curious, Observant, Patient

Kit list

- Dust (flour, chalk, talcum powder, cocoa powder)
- Soft pencils
- Blank paper (white paper for pencil and cocoa prints; black paper for white powder prints)
- Sellotape
- Scissors
- Magnifying glasses

VIDEO AVAILABLE

Instructions

You will be comparing different fingerprints and seeing if you can identify any patterns. What do you know about fingerprints? Look at your own fingerprints using a magnifying glass.

- Now you are going to take your fingerprints. Rub a pencil onto a piece of paper or sprinkle a small amount of dust on a table.
- Now put your thumb on the pencil rubbing or in the dust. Then place your thumb firmly on the sticky side of a piece of sellotape.
- Stick your sellotape onto a piece of paper. You should be able to see your fingerprint. Experiment to see what works best to get clear prints.
- Look at your fingerprints, are the patterns like the ones at the top of the page?
- Compare your prints with other people. Are they all different? Can you work out which are yours?
- Can you find other ways to collect fingerprints?

Watch out

Check if anyone has wheat or nut allergies before using flour and cocoa.

Remember to keep fingers out of your mouth and eyes during this activity and to wash your hands thoroughly at the end of the session. **Do not use permanent markers.**

Next steps

This activity is one of the CREST SuperStar challenges. Why not try some of the other fun activities here: [primarylibrary.crestawards.org/#SuperStar](#)

If you are an adult wanting to run CREST Awards with your pupils, visit the website for advice on how to get started: [crestawards.org](#)

At home

Look for fingerprints on surfaces such as glass (e.g. drinking glasses, mirrors or windows). Can you identify who made them?

Can you find out other ways of identifying individuals?

Career options

Forensic scientists will collect evidence from crime scenes and take it to a laboratory for testing. These tests, like the activity you have just done, help police identify who committed the crime. If you have a lot of patience and like solving problems, this could be a career for you!

BRITISH SCIENCE WEEK 2023 PRIMARY

I look forward to hearing the type of fingerprint the children have...

Have a wonderful weekend – let's hope the weather improves!
