

Pupil premium strategy statement – Rosemellin School

This statement details our school's use of pupil premium (and recovery premium) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the outcomes for disadvantaged pupils last academic year.

School overview

Detail	Data
Number of pupils in school	386
Proportion (%) of pupil premium eligible pupils	35%
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended – you must still publish an updated statement each academic year)	2024-2027
Date this statement was published	November 2024
Date on which it will be reviewed	July 2025
Statement authorised by	Tamsin Lamb
Pupil premium lead	Tim Rice
Governor / Trustee lead	Jenni Richards

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£214,052
Recovery premium funding allocation this academic year <i>Recovery premium received in academic year 2023/24 cannot be carried forward beyond August 31, 2024.</i>	£0
Pupil premium funding carried forward from previous years (<i>enter £0 if not applicable</i>)	£0
Total budget for this academic year <i>If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year</i>	£214,052

Part A: Pupil premium strategy plan

Statement of intent

Our intention is that all pupils, irrespective of their background or challenges they face, make good progress and achieve high attainment across all subject areas. The focus of our Pupil Premium strategy is to support disadvantaged pupils to achieve that goal, including progress for those who are already high attainers. We recognise that not all children who receive free school meals will be socially disadvantaged, and we also recognise that not all children that are disadvantaged have free school meals.

High quality teaching is at the heart of our approach, focusing on those areas for which disadvantaged pupils require the most support as detailed below in the intended outcomes. Evidence shows that this approach will not only impact on closing the disadvantaged attainment gap but also will benefit the non-disadvantaged pupils in our school, improving and sustaining their attainment.

Our approach is responsive to common barriers to learning and meets individual needs. We have adopted a whole school approach in which all staff assume responsibility for disadvantaged pupils' outcomes, raising expectations.

Our intention is to ensure our children, including disadvantaged: CARE – so that they can make a positive difference to the rapidly changing world that we live in. Our carefully designed curriculum is ambitious, engaging and enables us to be Curious, Active, Reflective and Evolutionary through our continuous journey of learning. This is an exciting stage in a child's life, and we want all children to enjoy their time at school, attain high levels of self-efficacy and sense of agency, and be enthused to gain a range of knowledge and skills that can be used in different aspects of life.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Pupils live in a predominantly monocultural and geographically isolated part of Britain which limits their exposure to, and knowledge of, the diverse range of cultural backgrounds beyond their own community. Pupil premium children sometimes have less developed cultural capital than their non-pupil premium peers.

2	Disadvantaged children typically start school with higher needs regarding their communication skills and vocabulary development, creating a large word gap difference between them and their peers. This, coupled with the high numbers of children with speech and language needs impacts fluency in reading.
3	A lower percentage of our disadvantaged children attain age related expectations, and greater depth standard, when compared to non-disadvantaged children.
4	Attendance levels of those children in receipt of pupil premium are lower than the non-pupil premium children.
5	Increasing numbers of children show the signs and symptoms of low self-efficacy: avoidance of challenge, low motivation, self-doubt, anxiety and stress.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
To enrich and broaden our children's understanding of cultural diversity and cultural capital within Britain and around the world	Children have a knowledge of the cultural diversity and cultural capital within their own community, the UK and beyond. They are inquisitive and talk positively about a range of cultures different to their own.
To decrease the word-gap between children living with disadvantage and their peers. To ensure children with speech and language needs have timely, targeted interventions to address their individual needs.	Teachers deliver quality first teaching for oracy. Children with speech and language needs make accelerated progress and/or catch-up with developmental speech and language norms.
Differentials in attainment (age related and greater depth) between disadvantaged and non-disadvantaged pupil groups will be eradicated.	Outcomes are not only in line with national disadvantaged, but also in line with their non-disadvantaged peers.
Attendance levels for all children in school are 96% or above.	Greater parental awareness and improved communication with individual cases of persistent absenteeism being reduced.
To raise children's self-efficacy: their belief in their actions make a difference and therefore able to succeed.	Children's have increased confidence in their ability to learn and succeed. Staff have the skills to promote self-efficacy through quality first teaching. School Culture promotes self-efficacy for all stakeholders.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium) funding **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £ 111,052

Activity	Evidence that supports this approach	Challenge number(s) addressed
<p><i>Regular use of the 'Lyfta' resource is achieved within school through:</i></p> <ul style="list-style-type: none"> -planning Lyfta into school assembly plans -introducing 'Lyfta time' to enable classes to 'explore' on a regular basis -articles being utilised to support non-fiction reading lessons (as appropriate) 	<p>David Didau – Wider outcomes and achievement</p> <p>Lee Elliot Major and Emily Briant – Equity in Education</p> <p>hundrED recommended resource “helps teachers to nurture empathy, active citizenship and 21st Century skills.”</p>	1

identified pupils.		
Accurate analysis of assessment is used to identify barriers in learning. Pupil Progress meetings take place termly.	<p><i>DFE – Supporting the attainment of disadvantaged children.</i></p> <p>6. Data driven and responding to evidence More successful schools use data to identify pupils' learning needs at every opportunity – when pupils join the school, during regular reviews of progress and during day-to-day teaching. They review progress every few weeks, spot any signs of underperformance and address them quickly. Teachers engage with the data themselves: they input, analyse and use it to underpin their teaching. More successful schools have a consistent marking scheme which recognises pupils' achievements and sets out the next steps in their learning. Pupils are given time to review their feedback and discuss their progress with teachers.</p>	3
Attendance leads to continue networking with Crofty leads. Increased awareness of attendance through newsletters, staff meeting agendas, rewards attendance process. Attendance INSET helps SLT to review and reform attendance approaches.	<p><i>Education Endowment Foundation</i> <i>EEF – Supporting school attendance</i> 3. <i>Communicate effectively with families.</i> 6. <i>Monitor the impact of approaches.</i></p> <p>https://educationendowmentfoundation.org.uk/education-evidence/leadership-and-planning/supporting-attendance</p>	4

Total budgeted cost: £ 214,052

Part B: Review of the previous academic year

Outcomes for disadvantaged pupils

Early Years GLD – July 2024

52% of EYPP children at Rosemellin attained a good level of development compared to 72% of non-EYPP children. (Cornwall EYPP = 56%, Not EYPP = 72%)

The EYPP % is below the non-EYPP % for every Early Learning Goal apart from Fine Motor Skills.

Phonics – July 2024

By the end of KS1, 95% of disadvantaged children at Rosemellin and 95% of non-disadvantaged children at Rosemellin had attained the expected standard in phonics. (This is in comparison to 81% and 91% respectively nationally.)

14/17 – 81% at expected standard for PP children in Y1 (83% national)

32/40 – 80% at expected standard for non-PP children in Y1

46/57 – 81% whole Y1 cohort (80% national)

KS1 - July 2024

Reading National: 68%

Overall 68% of children attained at expected levels. 73% of non-disadvantaged attained the expected level compared to 58% of disadvantaged

Writing National: 63%

Overall 67% of children attained at expected levels. 71% of non-disadvantaged attained the expected level compared to 58% of disadvantaged

Maths National: 72%

Overall 68% of children attained at expected levels. 73% of non-disadvantaged attained the expected level compared to 58% of disadvantaged

KS2 - July 2024

Reading National: 74%

Overall 68% of children attained at expected levels. 85% of non-disadvantaged attained the expected level compared to 54% of disadvantaged.

Writing National: 72%

Overall 63% of children attained at expected levels. 63% of non-disadvantaged attained the expected level compared to 64% of disadvantaged.

Maths National: 73%

Overall 64% of children attained at expected levels. 70% of non-disadvantaged attained the expected level compared to 57% of disadvantaged

GPS National: 72%

Overall 55% of children attained at expected levels. 67% of non-disadvantaged attained the expected level compared to 46% disadvantaged

Combined National: 60%

Overall 48% of children attained at expected levels. 56% of non-disadvantaged attained the expected level compared to 43% disadvantaged

The previous 3-year Pupil Premium strategy statement contained specific intended outcomes regarding; raising attainment in reading and maths, and improving the attendance of disadvantaged pupils. Outcomes for PP children in EYFS and KS1 were significantly improved between 2022 and 2023. This included KS1 disadvantaged EXS % above non-disadvantaged %, as well as being above national averages for PP and non-PP children. At KS2, while the gap narrowed in maths, it was not significantly reduced in reading or writing.

Our year 6 cohort in 2023-24 was one with a very high percentage of children who were both PP and SEN. A significant number of these children on the RON had challenges of either an academic, emotional or behavioural nature. The gap between PP and non-PP children attainment at the end of KS2, for this cohort, widened when compared to the year 6 group of 2022-23. Teacher assessment and tracking of formative assessment shows that our current year 6, have no attainment gap between PP and non-PP. This will be shown in the end of KS2 assessment in Summer 2025.

Attendance – for the academic year 2023/24

PP 91.62%

Non-PP 95.01%

Persistent absence (Total 58 pupils)

% of persistent absence who are PP: 60.34% (35 pupils)

% of persistent absence who are not PP: 39.66% (23 pupils)

Both of these attendance measures show that pupil premium attendance continues to be a focus area for 2024-25. The approaches to improving PP attendance will be further refined.

Externally provided programmes

Please include the names of any non-DfE programmes that you used your pupil premium (or recovery premium) to fund in the previous academic year.
